

FLOOR SAW CF-2015 E

Order-no.: 3000052

Electrically driven floor saws are suitable for indoor cutting where it is not permitted to use machines with combustion motors due to regulations regarding emission and/or noise protection.

The CF-2015 B floor saw impresses with its user-friendly overall concept and compact design. The powerful electric motor enables optimum cutting performance of the machine. Equipped with a hydrostatic drive, this enables the floor cutter to advance evenly during cutting operation. The cutting depth is adjusted electro-hydraulically. The handles are individually height-adjustable.

Technical data		CF-2015 E
Max. cutting depth	mm	200 - 350
Blade-Ø	mm	600 - 900
Bore hole of blade	mm	25,4
Blade mounting		right or left
Max. mounting width	mm	20
Motor output	kW	15
Voltage	V / Hz	400 V / 50
Amperage	A	32
Cutting depth adjustment		electro-hydraulic
Feed		hydrostatic
Dimensions L/W/H (transport)	mm	1700 / 750 / 1050
Weight	kg	342

Additional features

- Saw blade can be mounted on the right or left side
- Quick and easy change of cutting side
- Smooth feed due to hydrostatic travel drive
- Height-adjustable handles
- Electro-hydraulic cutting depth adjustment and blade lift
- Hinged blade guard for cuts up to walls
- Adjustable cutting depth indicator
- Crane eye for easy loading and moving of the machine
- Water supply only possible via external pressurised water connection
- Economical cooling water supply via the blade flanges
- Emergency saw blade lift by means of hydraulic hand pump

Subject to technical and optical changes and further developments.
