

DRILL COLUMN P-250.1

CEDIMA P-250.1 – Maximum flexibility for precise core drilling up to 250 mm.

Order-no.: 50015850

The CEDIMA P-250.1 drilling stand is the ideal solution for a wide variety of core drilling applications. Thanks to its high flexibility and user-friendly operation, it is suitable for a broad range of applications. The drilling stand can be combined with various CEDIMA drilling motors and enables drilling to a diameter of up to 250 mm.

Technical data		Drill Column P-250.1
Max. drill-Ø	mm	250
Max. lifting	mm	660
Dimensions LxWxH	mm	990 x 265 x 410
Diagonal drilling		up to 45° infinitely
Weight	mm	13,5
Suitable drill motors	DKS-15 SP, C-BMH-160, C-BM-17, C-BMS-350 C-BM-32, C-BM-32 S, DK-17, DK-32	

Guide rail made of aluminium profile, only 13.5 kg

Handle

Double support of the column to the rear

Sturdy dowel foot with integrated adjustment screws

Flexible setup. Precise results.

Your benefits:

- feed carriage: roller guide eccentrically adjustable
- column infinitely adjustable up to 45°
- Feed lever attachable on both sides
- lockable carriage
- quick and simple assembly/ disassembly of the drill motor at the drill column by quick coupling

Scope of delivery P-250.1:

- including mounting plate type Z (with collar)
- including mounting plate type U (for column-guided motors)

Subject to technical and optical changes and further developments.
